OGM Case Number: B-011-01/08

OGM Operator: Barnes Resources ((Mike Aimonetti))

OGM Administrator: Sheldon Winters

All Paperwork Received: Only Map Received May 6, 2008

Project Description/Remarks: Barnes Resources is proposing 4 wells, numbered B-17 through B-20, in Lot 316, Sheffield Township, Warren County. Access to the proposed wells is off of FR 258. Sheldon Winters has been in the field with Barnes's Representative Mike Aimonetti. They laid out road locations to the proposed wells and have TWO options for access to well B-19. Both options should be reviewed in order to choose the best access to protect impact to resources and be within a reasonable grade. (Please see attached map for more detail) Wells B-5 and B-7 are existing wells.

RE: Lease Roads for Barnes Resources, Lot 353

Dear Ms. Kelly:

I am the surveyor that staked the wells on Lot ~~353~~ ³¹⁶ for Barnes Resources. Mr. Garold Oaks has asked me to contact you to make arrangements to finish the needed work for the road layout and completion of the paperwork. Enclosed please find a copy of a topo map of the area showing the locations of the permitted wells and proposed road locations.

Please contact me at the above phone number so we can discuss the project and arrange a meeting time, if necessary, to review the project in the field.

Sincerely,

A. Michael Aimonetti

A. Michael Aimonetti
