RE: Surface Landowner  
**Warrant 3714 West #10, #13 and #17**  
Corydon Township  
McKean County

To Whom It May Concern:

We are required by Pennsylvania law, Act 223, to notify surface landowners of our intent to drill oil wells on the above referenced property. Enclosed please find 3 well plats showing you the location of the proposed oil wells as required by the Act.

We are hopeful that our drilling in your area will be successful, thereby improving local economics, while at the same time providing new sources of natural gas for Pennsylvania.

Sincerely,

**SNYDER BROTHERS, INC.**

Dear Mr. Scardina :

I am writing to get some clarification on our proposed project on Warrant 3714.

We have been told that a determination has been made as to the species of hawk in the stick nest by our proposed well site and that we could possibly begin construction in July. I cannot stress strongly enough that this is a matter involving a lease that has expired due to this delay and we need to document these delays in order to continue to hold this acreage.

Please respond to me in writing as soon as possible.

Yours Truly

Subject Snyder case 193

I went to verify the species using the hawk nest in the Snyder Case 193 Warrant 3714. I saw a red tailed hawk leave the nest and vocalize.  
The recommendation is to hold off on development until July 31 then implement the project as planned.

Thank you.

Subject Warrant 3714, Well#7 Issue Response

Dear Mr. Defibaugh,

The wildlife biologist on my staff revisited Warrant 3714 on May 1, 2008, to review the nest near Well #7. A red-tailed hawk flew from the nest, perched nearby, and vocalized. Our plan is to move forward on our end so that you can begin work on or shortly after July 31, 2008. This should give the hawk adequate time to fledge this years young.

I appreciate your patience in addressing this issue. If you have further questions or concerns, please feel free to contact me. Thank you.
