Dear Colleen,

Duhring Resource Company is planning to continue a drilling project in Lot 8, Sheffield Township, Warren County. I have enclosed the Permit Applications and Plats for the five wells to cover the landowner notification requirement. The proof of ownership was included with the last well package, and should be in your files. The plan of operations, topographic maps, an E&S plan, and the designated field representative are also with this mailing. The centerline of the proposed roads as noted on the Site Map, have been marked in the field with orange / pink flagging. Transmission lines will be located in the new roads, and adjacent to the existing roads. The Transmission lines are also shown on the Site Map.

Please give me a call if you will need any additional information. Thank you for your help with this.

Thanks again for your time.

Sincerely,

A handwritten signature in black ink, appearing to read "Philip L. Hampson", written in a cursive style.

Philip L. Hampson, PLS
