Subject Re: Durhing Resources - FS Road 148

Tony,

The following questions need to be asked?

Has Federal Property been damaged? Yes  
Is there unreasonable use of the surface? Yes  
Did they follow there operating plan? No

I recommend calling Jason H. and have them find for destruction of federal property and make them pull back the material away from the trees. If the trees have been damaged, then they should be required to pay for the value of the trees. Those trees should remain on site.

Make sure the answers to the questions above are accurate.

Subject Durhing Resources - FS Road 148

During Resources, warrant 2752, on FS Road 148. There are several trees buried by fill and a very large, excessive disturbance for a well site and tank bunker.
