Subject Lot 8

This contract (Warrant 2572 Deck Sale, # 155960) is schedule to expire 12-31-08. New Shawmut has completed removal of all material. Duhring Resource is satisfied with the removal. Snow covered weather conditions have prevented final inspection of decking areas, they appear to be level and were previosly graded when stockpiling pulpwood for removal.. Road template has not been damaged. Mr. Kojancic would like to have his performance bond released. Tony, please advise as how contracting should proceed.
