Subject Re: Duhring Resources Pipeline

Good Morning, Anthony -

I have not had a chance to follow up on this issue in the field. Jim Seyler and I did talk at length about this situation, and it didn't sound like the area that Nate and I spent time on last fall with Mr. Stewart, but in a different location.

I am currently tied up with timber sale contract litigation issues and deadlines, so I am directing Forest Service Representative (FSR) Jim Campbell from the SO Timber Group to work with Nate and Jim Seyler. As Jim described this pipeline to me, it appeared like it could be close to private lands, but we're not sure at this point. At any rate, appears it could well fall within the sale area boundary of the South Branch Tionesta Timber Sale on your District.

Subject Re: Duhring Resources Pipeline

That would be great. Sheldon and I will be in the area around 11 am or so if you want to try to catch us on the radio. We did not see any sign of marked trees.
