Subject Wetland Delineation/Durhing Resources

I was out in the field today with Rob Fallon, Sheldon Winters, and Arthur Stewart to discuss our objection letter pertaining to two well sites. In the course of our discussion, DEP was in the same location reviewing the sites. It was Bob (can't remember his last name) and his supervisor, Paul Kucsma. They mentioned wanting to get back into the field with us in the same location to discuss the wetland delineation issue. They are proposing July 3rd and invited another person that they consider an expert on the issue (can't remember the name, but I think it is someone from the Army Corps of Engineers). I am not sure how you all want to handle this since it is a forest-wide issue, but I told them that I would attend. Cara are you available that day? Jim, who else should be involved?

In addition, Arthur and I came to an agreement on the two well sites. I am going to write-up a report and will forward it to Kathleen and the two of you. I will be in the SO tomorrow and will discuss this with you. Sheldon is going to set up another meeting to review four other well sites included in the objection letter to see if we can reach an agreement on those.

I will get back to you on the July 3rd meeting.
