Subject Re: Fw: Possible land swap

Cindy,

Can you define what "proof of ownership" is? Is the deed in their name or have they leased the property from the actual owner?

Thanks,

Jim Seyler  
Technical Services Staff Officer

Subject Re: Fw: Possible land swap

Good morning Jim,

I talked with both Cindy and Colleen. Cindy has several folders regarding Shaboom and Azco since she has been working on special uses for Duhring. Colleen has a proof of ownership that Duhring submitted for its proposals for Lots 7, 8 and 9. I made a copy of the proof of ownership and gave it to Cindy, so she has all the information we have readily available. If you need this information, please give Cindy a ring.

Take care,  
Paul

Paul,

Do you know where this file is. I've gone through everything here at the SO and don't have it. I have a call in to the RO to their take on this as well.

Subject Possible land swap

Mr. Richard: With regard to our conversation today, I checked with our firearms program staff. They are located in Altoona, PA. If there were some land available within about an hour's drive of Altoona, they would potentially be interested. They need an outdoor testing facility, and their basic requirements would be for a lot with no close residents (noise), that had an all weather access road, gradeable, on which they could place a bullet trap. That way, no metals would be dropped or shot into the ground. If the property had a hillside or some grade to it, it would create a natural backstop, in case of an errant round that missed the trap.

This came back a little faster than I expected, but it gives us something to work with. Let us know. Nice meeting you today. Regards.
