Subject Duhring Resource Company - Forest Service and DEP field
visit on April 13, 2007 / Morrison Run Meeting

Good afternoon Lois, Robert, and Jim,

For your information, I'm sending you the inspection report that discusses the DEP/Forest Service site visit on April 13, 2007. Sheldon has a draft inspection report from last Thursday (May 3, 2007), however, he still needs to make some edits before it's finalized. When I get a few minutes, I'll write the inspection report that discusses the field visit that Robert, Sheldon and I had with Duhring on Friday, April 27, 2007. As per conversations I had with both Lois and Jim, I'm going to call Arthur to inform him that we're planning to work with the DEP to develop mitigation measures for Duhring's latest proposal, and to let him know that we're still actively working on Duhring's proposal. I'll write a record of communication documenting our conversation. Also, I'll give Bob Gleeson a call tomorrow to discuss the Duhring Resource case.

On another note, Lois and Robert, does May 17th work for you regarding the Morrison Run meeting? So far, it works for Jim, Colleen, Al and I. Once the date works for everyone in-house, we'll propose it to the OGM companies.

Take care,
Paul

Colleen, please file the following report in the Duhring case files... Thanks... PGW
