(Telephone #) (814) 968-3337 (office), (814) 688-0219 (cell)

Contact was made: by telephone by email in person other

SUBJECT OF
CONTACT:

Below are messages I have saved on my cell phone from Mr. Arthur Stewart of Duhring Resource Company as of December 4, 2007.

June 4, 2007: Mr. Stewart called to coordinate a field meeting.

June 22, 2007: Mr. Stewart called to arrange a meeting with me and Ken Scott of the DEP.

July 26, 2007: Mr. Stewart called to discuss meeting in the field to finish laying out Lots 7, 8 and 9.

August 29, 2007: Mr. Stewart called to inform me he had concerns regarding the two-stripes in the FR162 pit.

August 30, 2007: Mr. Stewart called to arrange a field meeting in order to two stripe the clearing limits in Lot 8.

November 7, 2007: Mr. Stewart called to say that Mr. Alan (sp?) Smith of LDB Timberland had concerns with the amount of timber volume identified in Lot 9. He also said Duhring needed to use FR103 to implement its development in Lot 7 after all. Note: He had previously informed me that Duhring did not need to use FR103 because it would use the non-system roads it was building to haul equipment and stone instead of adding FR103 to its Commercial Road Use Permit application. This change had to be made to Duhring's Commercial Road Use Permit, which added time to processing the permit.
