OGM Case: OGM Case 595

OGM Operator: Duhring Resources

OGM Administrator: Miles

Date: 7/9/07

Remarks: OGM Operator plans to build a new road system and use only portions of the existing road system that fit the new layout. Wells No. 3, 1 (No road flagged), 10, 8, & 9 (Flagged with pink CL only) are to be plugged. Wells that are to be re-furbished are 6, 8, 1253, & 1247. New wells are 3672-13, 3672-8, 3672-9, 3672-10, 3672-12, 3672-11, 3672-20, 3672-19, & 3672-25. These wells are not staked; however we did flag several well pads where it fit the new road template. New wells are to be drilled at a later date so we will flag these locations later. The proposed roads are flagged with pink CL and orange/silver clearing limits. Pit will likely be 403/403A (equestrian use area).
