

October 29, 2007

Mr. Lewis,

As we discussed, several weeks ago East Resources, Inc. had requested to use stone from the pit on F.R. 403 for our test well on Warrant 2022. We were told that pit had been reserved for Arthur Stewart. After contacting Arthur Stewart, he has informed us he has no objection with East Resources, Inc. taking stone from this pit. I have explained this to Rob Falon and he has instructed me to forward this information to you.

We will commence construction on this site Monday October 29<sup>th</sup> and would like to stone it on October 31<sup>st</sup>.

Your time and effort in resolving this matter is appreciated.

Sincerely,

Robert H. Long
