Brenda had plans for the 403 pit which we probably will not do but I would still like to level out any areas we can for trailer parking.

Lauren,

All the horse trail planning docs. are at your office. Let's have Joe look and see if there were any plans to develop the pit on 403 for a trailhead facility. I can't recall without a refresher. Just my observation from across the forest recently; would be not to develop pit areas for recreation facilities. I'm not convinced that recreationists and OGM developers can coexist in these developing and expanding pit areas.
