RE: Well No. 42, Lot 9, Sheffield Township

Dear Sheldon:

I write in follow up to the telephone message I left with you on November 6, 2008. When you, Jack and I looked at the several-well package on Lot 9, you and Jack asked if we could move Well 42 a few feet to the west so that it was on the road. I asked our surveyor, Phil Hampson, to take a look at that possibility for us. Phil reports that if he slides Well 41 just a bit to the south, he can successfully move Well 42 so that it is on the road. (See attached map.)

We will need to slightly change the two-striping so that we create an area to the west (up the hill) for the frac pit, etc. I do not believe there is any timber of any value to be marked. It is just a matter of adjusting the two-stripes.

Please let me know when you are available to meet on this topic.

Very truly yours,

Arthur J. Stewart
