

**MANAGEMENT SUMMARY  
OF THE  
FY 2007 OGM Case M139  
CRR 09-19-02-536**

**1. Type of Project:**

Duhring is proposing 4 new wells (#s 16, 18, 24, and 26), access roads, and pipelines. The wells, access roads, and pipelines are to be located just west of FR 131 at Duhring, PA. (Russell City, PA quad).

**2. Establish Undertaking (per 36CFR800.3(a)):**

- Federal Undertaking: (If so, the 106 process is coordinated with NEPA)  
 **OGM project** (outstanding rights)

**3. Identification of Historic Properties (per 36 CFR 800.4)**

A cultural resource survey was conducted on 17 and 25 June 2008 by R Cartwright. No cultural resources were identified within the proposed project area.

**4. National Register of Historic Places Eligibility (per 36 CFR 800.4(c))**

There are no new cultural resources within the project area. Proceed with project.

**5. Opinion on Effect**

It is my opinion that this project will have:

***X No Historic Properties Affected***

The agency official finds that either there are no historic properties present or there are historic properties present but the undertaking will have no effect upon them as defined in 36CFR 800.16(i), the agency official shall provide documentation of this finding, as set forth in 36CFR800.11(d) to the SHPO/THPO. The agency shall notify all consulting parties and make the documentation available for public inspection prior to approving the undertaking. If the SHPO/THPO, or the Council if it has entered the section 106 process, does not object within 30 days of receipt of an adequately documented finding, the agency official's responsibilities under section 106 are fulfilled. (36CFR800.4(d)(1) **(PROJECT MAY PROCEED IF SHPO/THPO CONCURS)**)

***Finding of No Adverse Effect***

The agency official, in consultation with the SHPO/THPO, may propose a finding of no adverse effect when the undertaking is modified or conditions are imposed, such as the subsequent review of plans for rehabilitation by the SHPO/THPO to ensure consistency with the Secretary's standards for the treatment of historic properties (36CFR68) and applicable guidelines, to avoid adverse effects (36CFR800.5(b)) **(PROJECT MAY PROCEED AFTER AGREEMENT WITH SHPO/THPO AND, IF NECESSARY, THE ACHP)**

*Finding of Adverse Effect*

The project will have an adverse effect on historic properties because of the following:

- Physical destruction of or damage to all or part of the property
- Alteration a property, including restoration, rehabilitation, repair, maintenance, stabilization, hazardous material remediation, and provision of handicapped access, that is not consistent with the Secretary's standards for the treatment of historic properties (36 CFR 68)
- Removal of the property from its historic location
- Change of the character of the property's use or of physical features within the property's setting that contribute to its historic significance
- Introduction of visual, atmospheric or audible elements that diminish the integrity of the property's significant historic features
- Neglect of a property which causes its deterioration, except where such neglect and deterioration are recognized qualities of a property of religious and cultural significance to an Indian tribe of Native Hawaiian organization; and
- Transfer, lease, or sale of property out of Federal ownership or control. Without adequate and legally enforceable restrictions or conditions to ensure long-term preservation of the property's significance.

**(IF AN ADVERSE EFFECT IS FOUND, FURTHER CONSULTATION WITH THE SHPO, THPO, THE ADVISORY COUNCIL ON HISTORIC PRESERVATION AND OTHER CONSULTING PARTIES IS THEN NECESSARY TO DEVELOP AND EVALUATE ALTERNATIVES OR MODIFICATIONS TO THE PROJECT THAT COULD AVOID, MINIMIZE, OR MITIGATE ADVERSE EFFECTS ON HISTORIC PROPERTIES PURSUANT TO 36CFR800.6.)**

**6. Certification:**

I certify that the Cultural Resource investigations reported here are complete and accurate to the best of my knowledge:
