Star Route 2, Box 130

Dear Mr. Miles,

Duhring Resource Company is planning to rehabilitate some of its existing transmission lines, and prepare locations for wells to be drilled in Warrant 3672, Jenks Township, Forest County. Proof of ownership should be in your files from the previous project, the plan of operations, topographic maps, an E&S plan, Surface Owner Notification, and the designated field representative for this project for this project are included with this mailing. The centerline of the proposed roads, as depicted on the Site Map, have been marked in the field with flagging. Transmission lines will be located in or adjacent to the new and existing roads, unless otherwise noted.

Please give me a call if you need any additional information. Thank you for your help with this project.

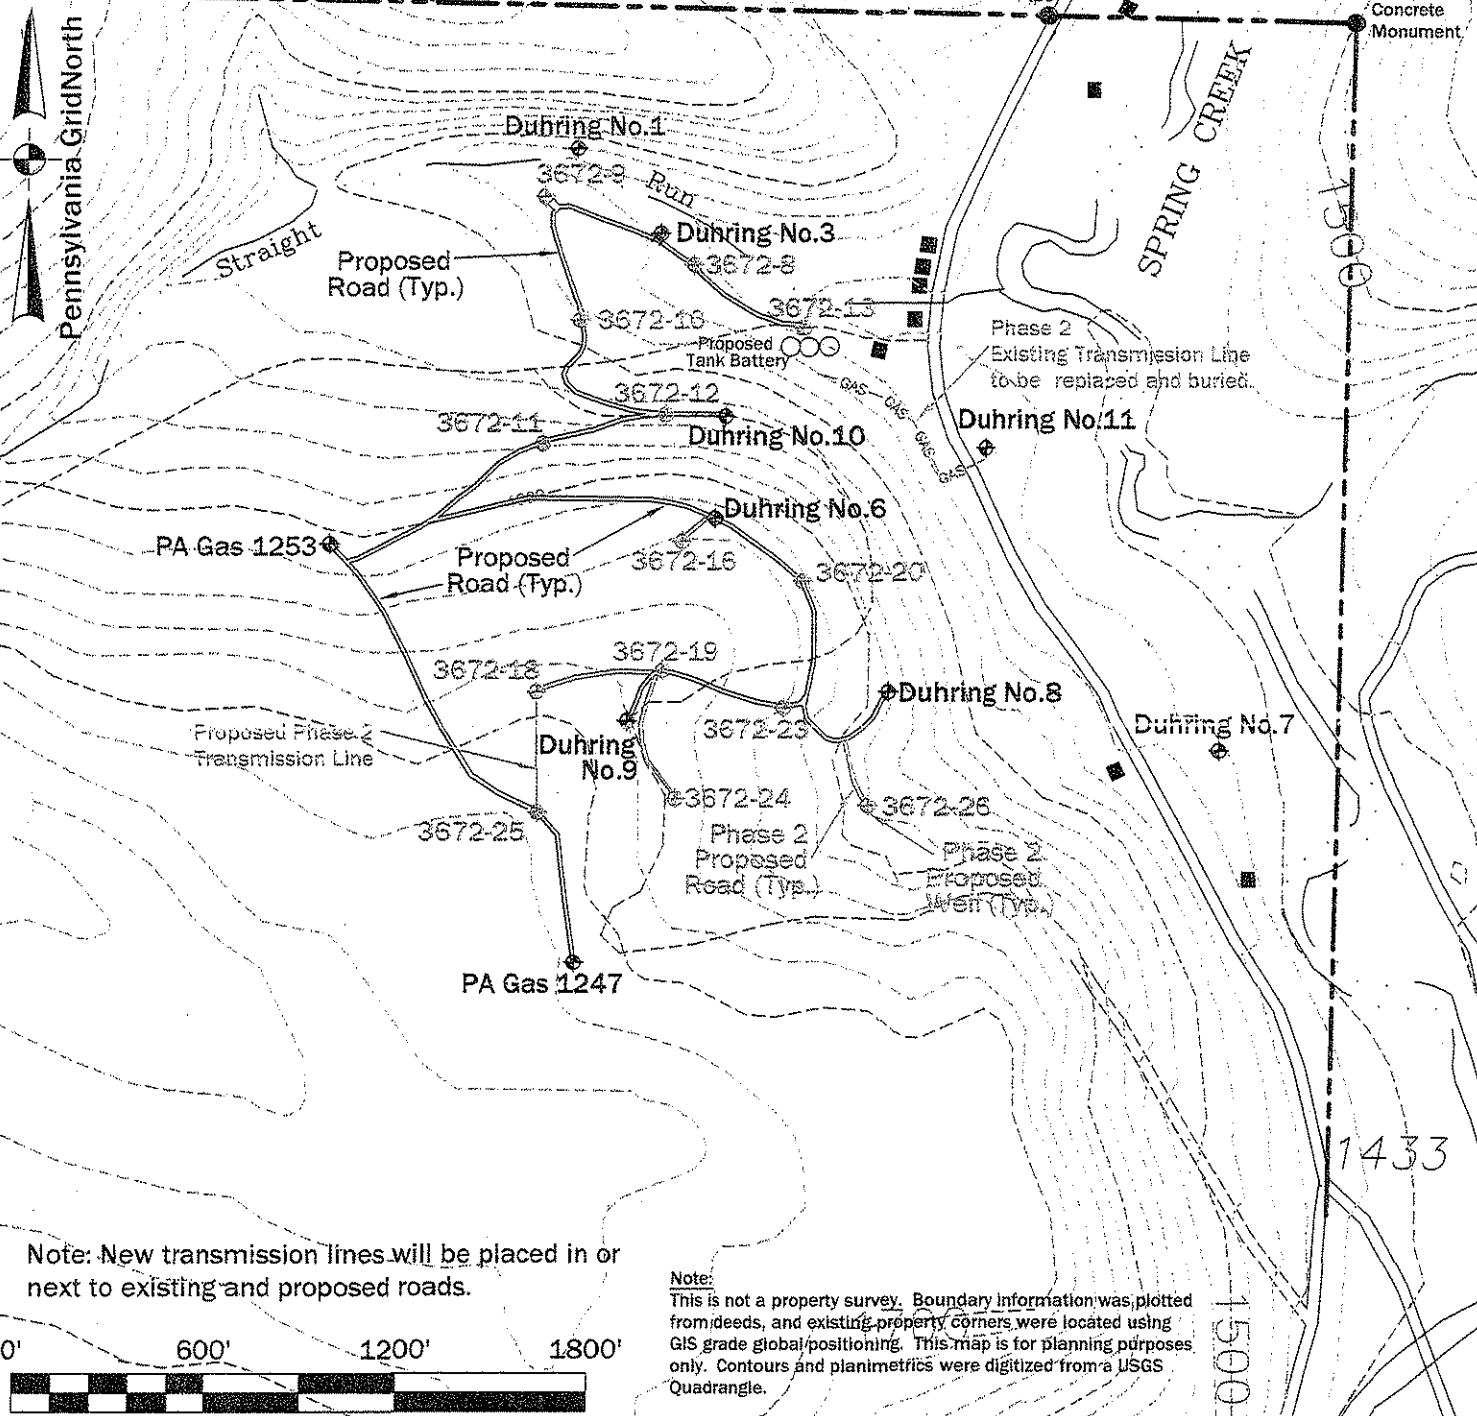

Sincerely,

Philip L. Hampson, PLS

Note: New transmission lines will be placed in or next to existing and proposed roads.

Note: This is not a property survey. Boundary information was plotted from deeds, and existing property corners were located using GIS grade global positioning. This map is for planning purposes only. Contours and planimetrics were digitized from a USGS Quadrangle.
