

MARIENVILLE RANGER DISTRICT

OIL AND GAS INSPECTION REPORT

OGM Case Number: M139
 Weather Conditions: Sunny/80
 Warrant/Lot Number: 3672
 Discussed Operation With: Arthur Stewart
 Equipment On-Site: None
 Activity On-Site: Layout

Date of Inspection:
 Persons On-Site:
 Inspector: Miles

INSPECTION ITEMS and RESOURCE CONCERNS

Erosion		FS System Roads	
Minor oil, gas, brine leak		Non-FS System Roads	
Major oil, gas, brine spill		Drainage Structures	
Safety Hazards		Tank Concerns	
Unauthorized Development		Re-Vegetation	
Well Head Leaks		Slash Disposal	
Sump Ponds		Electric Lines	
Timber Removal		Pipe Lines	
Timber Damaged		Abandoned Equipment	

S = Item is satisfactory O = Item is not satisfactory (explain in comments)

Blank = Item not inspected NA = not applicable

COMMENTS:

On project area with Arthur Stewart flagging wells and pipelines for oil field development. Wells that are ready for marking include #3672-16, 20, 18, 24 and 26. Well #26, wasn't moved, however, the well pad was shifted 30' as requested. The pipeline from 18-25 will not require a cleared R.O.W. The pipeline from the proposed Tank Battery to Duhring Well #11 will require a 20' clearing limit. Arthur Stewart requested that this project be put on hold until he checks with his partner Steve as to the exact location of the proposed pipeline. He should call back within the week.
