Subject OGM Case 139 Duhring Resources

Rob, Just wanted to give you an update on this case. 60 days started on 5/28/08. CR was completed on 6/26/08. The spread sheet shows 60 days up on 7/12/08, (I think the delay to the specialist was due to the fact that Mike and I thought this was more paperwork for the old case, not a new one). I called Duhring on 6/26 for scheduling layout but Arthur was out of town. I gave him several days I was available for layout and we finally ended up with 7/14/08. He hasn't said anything about the time frames but I wanted to keep you in the loop.
